Install Your Plug-In Tracking Device

1. Open a web browser and go to: www.awaregps.com/getstarted

2. Create an account, or log in to your existing account.

3. Follow the instructions for activating your device(s).

4. Locate the OBDII port of your vehicle and connect your device.

   - If you need help locating the connector, please reference your vehicle’s owner manual.

   - You may use the enclosed zip tie to secure the device and prevent tampering.

   - When removing the device from your vehicle, make sure you grasp the device as close to the port as possible.

5. Start your vehicle, and check the lights on the GPS.

   - If not already on file, you may be prompted for your billing information.

   - Make sure the activation code on your device matches the code on screen. Or, if your activation code does not show up re-enter it and press continue.

   - Here’s a copy of your device activation code:

   - Your vehicle must be outside and not in a covered area so that it will receive GPS signal. When working properly, the orange and green lights will be on. You should see your car’s location on the map (may take up to two hours).

   - IMPORTANT NOTICE: remove device before jump starting the vehicle.

Activate Your Device

WE'RE CONFIDENT WE CAN MAKE IT RIGHT!
